Energy flows throughout the universe and through all living beings. Everything is connected and interrelated. The key to the magical door is the energy of the human in its various states of consciousness. This consciousness, connected and combined with the energy of the sun, moon and stars, produces highly creative thoughts and ideas, which all humans have the capacity to utilise. The conscious mind is only part of our awareness. The subconscious is the other essential part, yet most humans give it little attention or thought. The connection between the two is necessary for a balanced state of mind. Many people believe that imagination is just fantasy. To the creative individual, however, imagination is vapour that can carry thought forms to supernatural levels through the subconscious. On the physical level, a person s thoughts, imagination or dreams may transfer themselves into a work of art, a book, music, poetry, film, etc.
