Brand New Book ***** Print on Demand *****.Perhaps no process sends a collective shudder through an organization - employees and managers alike - than the performance review process. For 30-plus years I ve watched this jacked-up process spread through, smother and consume organizations. It s the black hole of resource waste, the reason why we hate HR, the stank in stanky management. I ve developed a more efficient and effective way to manage and write performance reviews. It s based on common sense and the practical realities of working in today s hyper-competitive, ultra dynamic, global business environment. If you re happy with your current process, then please keep doing what you are doing and don t read this book. If however, you are like the thousands or perhaps millions of employees and managers looking for a better way, then please read this short but provocative book. I guarantee it will make you think and perhaps change or modify your current process for the better.
