Pensoft Publishers, Bulgaria, 2010. Paperback. Book Condition: New. 240 x 165 mm. Language: English . Brand New Book. The present jubilee issue of ZooKeys, Taxonomy shifts up a gear: New publishing tools to accelerate biodiversity research, is entirely devoted to semantic markup of taxonomic literature and its implementation for semantic enhancements of published texts and their importance for increased convenience in reading, archiving, future data mining and reuse. Several novelties are described in the two forum papers and demonstrated in four exemplar papers. An XML-based editorial, publication and dissemination workflow was developed and implemented, that permits acceptance of manuscripts generated either from databases (Scratchpads websites and Proctotrupoidea website) or as standard MS Word files. The XML manuscripts generated by pushing the buttonA from Scratchpads are linked to the online dynamic versions of the same after publication. The papers are published in four different formats: (1) high-resolution, full-colour print version, to satisfy the current requirements of the ICZN, as well as the readers who prefer hardcopy, and for the purposes of paper archiving; (2) PDF to provide an electronic version identical to the printed one, to be archived in BHL and PubMedCentral; (3) HTML to provide links to external resources and semantic enhancements to published texts for interactive reading, and (4) XML version based on the TaxPub extension to the National Library of Medicine s DTD (to provide archiving document format for PubMedCentral and a machine-readable copy of the contents to facilitate future data mining (e.g., by EOL, GBIF, Plazi and others). A dynamic web-page for any taxonomic name mentioned in a publication will be created and explored online through the so-called Pensoft Taxon Profile tool, just by clicking on the name during the reading process. The dynamically generated taxon profile gathers and displays information from several leading biodiversity websites,...
