## A PLANETARY PROTECTION STRATEGY FOR THE MARS AERIAL REGIONAL-SCALE ENVIRONMENTAL SURVEY (ARES) MISSION CONCEPT

To save **A Planetary Protection Strategy for the Mars Aerial Regional-Scale Environmental Survey (Ares) Mission Concept** PDF, you should follow the web link listed below and save the ebook or have accessibility to additional information which might be relevant to **A PLANETARY PROTECTION STRATEGY FOR THE MARS AERIAL REGIONAL-SCALE ENVIRONMENTAL SURVEY (ARES) MISSION CONCEPT** book.

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. The Aerial Regional-scale Environmental Survey (ARES) is a Mars exploration mission concept designed to send an airplane to fly through the lower atmosphere of Mars, with the goal of taking scientific measurements of the atmosphere, surface, and subsurface phenomenon. ARES was first proposed to the Mars Scout program in December 2002 for a 2007 launch opportunity and was selected to proceed with a Phase A study, step-2 proposal which was submitted in May 2003. ARES was not selected for the Scout mission, but efforts continued on risk reduction of the atmospheric flight system in preparation for the next Mars Scout opportunity in 2006. The ARES concept was again proposed in July 2006 to the Mars Scout program but was not selected to proceed into Phase A. This document describes the Planetary Protection strategy that was developed in ARES Pre Phase-A activities to help identify, early in the design process, certain hardware, assemblies, and/or subsystems that will require unique design considerations based on constraints imposed by Planetary Protection requirements. Had ARES been selected as an exploration project, information in this document would make up the ARES Project Planetary Protection Plan. This item ships from La Vergne, TN. Paperback.
